

RECOMMENDED SYSTEM REQUIREMENTS

Workstation

RECOMMENDED

- Intel i5 or i7 8th generation and above, AMD R5 or R7 3rd generation and above
- 16+ GB RAM
- 100 GB hard disk space; solid state drive preferred
- Windows 10 64 bit, Windows 11 64 bit or server 2022
- 100/1000 network card (Ethernet)
- Internet connectivity is required for license activation and updates
- Microsoft SQL server 2019 with the latest cumulative update

MINIMUM

- Intel i5 or i7 6th generation and above, AMD R5 or R7 2nd generation and above
- 8GB RAM
- 100 GB hard disk space
- Windows 10 64 bit
- 100/1000 network card (Ethernet) or wireless N or above
- Internet connectivity is required for license activation and updates
- Microsoft SQL server® 2016 SP3

NETWORK (McCormick and McCormick Pro)

Server

RECOMMENDED

- Intel i5 or i7 8th generation and above, AMD R5 or R7 3rd generation and above
- 16+ GB RAM
- 100 GB hard disk space; solid state drive preferred
- Windows server 2022 or Windows 10 Pro or Enterprise
- 100/1000 network card (Ethernet)
- SQL server 2022 standard or enterprise (for users with SQL data over 10GB and/or 15+ users)

MINIMUM

- Intel i5 or i7 6th generation and above, AMD R5 or R7 2nd generation and above
- 8 GB RAM
- 100 GB hard disk space
- Windows server 2016 or Windows 10 Pro or Enterprise
- 100/1000 network card (Ethernet)

Cloud or SaaS (Software as a Service)

- Intel i5 or i7 6th generation and above, AMD R5 or R7 2nd generation and above
- 16+ GB RAM
- Windows 10 Pro/Enterprise 64 bit or Windows 11 Pro/Enterprise 64 bit
- Wired internet strongly recommended for Cloud clients

Note: Wireless networks are typically not fast enough and can see increased latency, negatively impacting performance
